

# NOTHING TO FEAR

Bellan/Bruno/Stoller

He kneels through the night  
One man alone in prayer  
Abba please hear my cry  
Father let this cup pass from me

Son, there is nothing to fear  
Nothing to fear  
My precious Lamb Your love will save the world

Peter please watch with me  
My soul is sorrowful  
Do not sleep while I pray  
Stay awake, be with me through the night

Son, there is nothing to fear  
Nothing to fear  
My precious Lamb Your love will save the world

There is nothing to fear  
Nothing to fear  
My precious Lamb, Your love will save the world

Fear not My Son, Your task is well fulfilled  
You'll stand by my side, as it has been foretold  
I could call legions of angels, to come and defend you  
To stand by Your side  
But in this darkness You must stand alone

For there is nothing to fear  
Nothing to fear  
My precious Lamb Your love will save the world

There is nothing to fear  
Nothing to fear  
My precious Lamb Your love will save the world
