

# YOU ARE MY HOPE

Stoller/Bellan

I feel my aching heartbeat  
In the silence of the night  
Your presence still surrounds me  
Why have I lost my sight  
Of the love You've given to me  
And the life You sacrificed?  
Embrace me in Your arms and  
Erase my pain tonight

Angels in heaven, lift me up into the light  
Shine upon the face of God, while I look into the light  
Only love can save me now this time  
You are my only hope

Come to me my sweet Jesus  
Fill me with Your endless love  
Heal this broken heart with Your grace  
So that I can rise above  
Holy Spirit open my eyes  
Wash away my human tears  
Change this sorrow into pure joy  
Dispel this crippling fear

Angels in heaven, lift me up into the light  
Shine upon the face of God, while I look into the light  
Only love can save me now this time  
You are my only hope

Whisper forgiveness in my ear  
Your voice is all I long to hear

Angels in heaven, lift me up into the night  
Shine upon the face of God, while I look in the light  
Only love can save me now this time  
You are my only hope
